

You Go Down Smooth

Lake Street Dive

Would it be true to say that I ordered you
Or is it you that ordered me?
I could say you are the only one I see
But I can't stop at two or three...And I am afraid to need you so
And I am too sober not to know
That you may be my problem, not my love...Would I be lying if I said you were too sweet
Though I'm quite sure you've got a bite
I could say that you were just a special treat
Though we both know that's not right...
And I am afraid to need you so
And I am too sober not to know
That you may be my problem, not my love...
Cause you go down smooth...Would it be true to say you go to my head
Or is that sentiment too frank
I could say you make it sweet to go to bed
But then it's you that breaks the bank...
And I am afraid to need you so
And I am too sober not to know
That you may be my problem, not my love...
Cause you go down smooth...
