

# Made Up Mind

## Tedeschi Trucks Band

I know you wish that you could see in my window  
Wishing you could pull up the blind  
And I'm wearing my robe made of flowers  
Just me and my made up mind  
I know you'd like to walk in my garden  
And pull yourself up a big bouquet  
You can smell the magnolias  
But It's just like I told you: I'm in a higher place  
I got a made up mind  
I got a made up mind  
And you're thinking I might break down in time  
You're gonna find  
I've got a made up mind  
Well, you might have seen me out on the country  
But you lost me at the crossroad sign  
Yeah that was the old me and now you can't hold me  
All cause of this made up mind  
Now you're looking for me up in the basement  
You can look down in the Milky Way  
Oh, holler my name and I won't hear you  
Cause I'm in a higher place  
I got a made up mind  
I got a made up mind  
And you're thinking I might break down in time  
You're gonna find  
I've got a made up mind  
I'm going higher  
I'm not afraid  
Licking my finger  
Turning the page  
Oh I got a made up mind  
Its made up all the time  
Sure as the moon as the stars gonna rise  
I've got a made up mind  
I've got a made up mind  
Lord its a made up mind  
I got a made up mind oh lord  
Oh, lord  
Now this talk is over  
Lord and my mind is made up  
My mind is made up
