People won't be people
When they hear this sound
That's been glowing in the dark at the edge of town
People won't be people
No, the people won't be people when they hear this sound
Won't you show me what begins at the edge of town
People won't be people
When they hear this sound
That's been glowing in the dark at the edge of town
People won't be people
No, the people won't be people when they hear this sound
Won't you show me what begins at the edge of town
Singer is a crook, whoa, ey, oh
Singer is a crook, whoa, ey, oh
Singer is a crook, whoa, ey, oh
Singer is a crook, whoa, ey, oh
Kitchen is the cook, whoa, ey, oh
Scissors are the barbers, whoa, ey, oh
Singer is a crook, whoa, ey, oh
The full of actors
People won't be people
When they hear this sound
That's been glowing in the dark at the edge of town
People won't be people
No, the people won't be people when they hear this sound
Won't you show me what begins at the edge of town
People won't be people
When they hear this sound
That's been glowing in the dark at the edge of town
People won't be people
No, the people won't be people when they hear this sound
Won't you show me what begins at the edge of town
Singer is a crook, whoa, ey, oh
Singer is a crook, whoa, ey, oh
Singer is a crook, whoa, ey, oh
Singer is a crook, whoa, ey, oh
Kitchen is the cook, whoa, ey, oh
Scissors are the barbers, whoa, ey, oh
Singer is a crook, whoa, ey, oh
The full of actors
People won't be people
When they hear this sound
That's been glowing in the dark at the edge of town
People won't be people
No, the people won't be people when they hear this sound
Won't you show me what begins at the edge of town
People won't be people

When they hear this sound
That's been glowing in the dark at the edge of town
People won't be people
No, the people won't be people when they hear this sound
Won't you show me what begins at the edge of town
