

# Master of Lonely

## Globelamp

master of lonely  
---?  
the wonderful colours of loving you  
are all turned to greycut the world into fragments  
put it on display  
i don't care to analyse  
why you turned out this way and i'm on the side getting laughed at  
while you're driving fast  
trying not to look back  
i know what you've done  
it doesn't matter what you tell anyone (anyone...)  
if he says he loves you  
but then he ain't got your back  
trust me baby  
you don't want a man like that  
don't worry about me  
i'm doing just fine  
i got some anonymous psychiatrist  
to analyse my mind i'm on the side getting laughed at  
while you're driving fast  
trying not to look back  
i know what you've done  
it doesn't matter what you wanna tell anyone (anyone...) i know what you've done  
it doesn't matter what you tell anyone (anyone...) maybe if you hide  
??  
??  
i'm on the side getting laughed at  
while you're driving fast  
trying not to look back  
i know what you've done  
it doesn't matter what you tell anyone (anyone...) i know what you've done  
it doesn't matter what you tell anyone (anyone...)
