

# One Step At a Time

## Jeff Lynne's ELO

Talk to me, don't leave me wondering  
Talk to me, let's see what tomorrow brings  
And then when you remember  
Things will be so much better  
Talk to me

Talk to me, don't give me the silent treatment  
Talk to me, guess I'm not in on the agreement  
And then you might discover  
One's better than the other  
Talk to me

One step at a time, we're gonna get to you then  
One step at a time, you're gonna talk to me  
One step at a time, we're gonna get to you then  
One step at a time, you're gonna talk to me  
Talk to me, though the damage done is so sad  
Talk to me, with the sadness in your eyes  
Everything will soon be better  
You soon begin to realize  
C'mon and talk to me

One step at a time, we're gonna get to you then  
One step at a time, you're gonna talk to me
