

# About Life

## Julianne Hough

Ever since I was a little girl  
You couldn't dare tell me a thing  
I was as stubborn as they come  
I was such a drama queen  
Thought I was right and I could do no wrong  
Some could've been a few dead ends  
Some bumps along the way  
Some never should've been boyfriends  
That ended in heartache  
But I still try to see the brighter side  
What goes up don't always come back down  
What goes around don't always come around  
I've been down on my knees just a beggin' the Lord  
The Devil's been knocking at my door  
I've been in the dark but I've always found the light  
Oh, I've been up and down this road before  
I keep on coming back for more  
And I still haven't figured a dang thing out about life  
Ooh, about life I've lived and learned and I've been burned  
But it's all apart of me  
I've got bars around my heart but I still believe  
There's someone out there with the key  
But I still dream and I won't give up the fight  
And who knows if I'll ever get it right  
Down on my knees just a beggin' the Lord  
The Devil's been knocking at my door  
I've been in the dark but I've always found the light  
Oh, I've been up and down this road before  
I keep on coming back for more  
And I still haven't figured a dang thing out about life  
Ooh  
What goes up don't always come back down  
What goes around don't always come around  
I'm gonna keep on keepin' on  
I've been down on my knees just a beggin' the Lord  
The Devil's been knocking at my door  
I've been in the dark but I've always found the light  
Oh no, I've been up and down this road  
before  
I keep on coming back for more  
And I still haven't figured a dang thing out about life  
And I still haven't figured a dang thing out about life  
Ooh, about life
