

Burnt Out Town

Tom Petty & The Heartbreakers

Yeah!

I was walking down the street the other day
A woman stopped me
She said: why are you looking so down in the mouth?
And I told her This is a burnt out town
Is full of dirty looks
The ashes are mainstream
And the mayor is cooking the books
I even like those friends
I turn them into crooks Yeah this is the burnt out town
You wear the same clothes
They dancing on the glass ceilings
While the money flows She doesn't know who I am
She doesn't care Yeah!
Take that, honey! This is the burnt out town
The city has come to blow
It's a cruel reality
A decent life exposed
Yeah, it's the burnt out town
It's going down but no one knows
Yeah, it's the burnt out town
Ain't there but we're getting close
