

Change It All

Harrison Storm

Take it from me
All of what I know
Lay there beside me and show your warmth
Its hard to find peace
Buried in so deep
I can only hear the world is shouting
All I see is how I could change it all
Find my peace, love I feel its time to fall
For a new day, oh from silence
To a new state of mind
Heard a whisper
Something said so sweet
Now quiet as ever, we'll leave this scene
Show no fear
For things we can't control
Hoping that you see how great that feels
All I see is how I could change it all
Find my peace, love I feel its time to fall
For a new day, oh from silence
To a new state of mind
All I see is how I could change it all
Find my peace, love I feel its time to fall
For a new day, oh from silence
To a new state of mind
