

# Advance Cassette

## Spoon

Getting caught's made me think it over  
And it told me that you're never coming back here again  
We've been doing things the same way for so long  
That it took me aback  
And I don't think I'll ever hear that sad song again  
Don't tell me I've lost you Advance cassette  
I just can't believe it  
No don't say that I've lost you  
Advance cassette I just can't believe it  
You'll know by the look on their faces when they pass you  
You've been dropped off on the texas highway  
I've been out here now for so long that I'm not sure  
How you wound me so tight  
I'm afraid I won't ever hear that sad song again  
So don't tell me I've lost you  
Advance cassette oh no  
I just can't believe in it  
No don't say that I've lost you  
Advance cassette  
I just can't believe it
