

# Someone

## Anna of the North

There's something in the water  
I can feel you getting under my skin  
I am looking for another lover  
I need someone who understands me  
Two drinks down  
Something in the water, baby  
Lose control  
Want someone to take me home  
I lose touch  
Throw my arms around you, baby  
I'm only human, baby  
Sometimes I act a little crazy  
I'm only human, baby  
Need someone to come and save me  
Someone  
Someone  
To come and save me  
Someone  
There's something in the water  
I can feel you moving closer within me  
I don't need to find another lover  
I just need someone who understands me  
Two drinks down  
Something in the water, baby  
Lose control  
Want someone to take me home  
I lose touch  
Throw my arms around you, baby  
I'm only human, baby  
Sometimes I act a little crazy  
I'm only human, baby  
Need someone to come and save me  
Someone  
Someone  
So come and save me
