## Fresh Blood

## **Eels**

Sun down on the sorry day By nightlights the children pray I know you're prob'ly gettin' ready for bed Beautiful woman, get out of my headI'm so tired of the same old crud Sweet baby, I need fresh bloodWhoo! HowlThe moon shines in the autumn sky Growin' cold, the leaves all die I'm more alone than I've ever been Help me out of the shape I'm in After the fires, before the flood My sweet baby, I need fresh bloodWhoo! HowlWhatever trepidation you may feel In your heart, you know it's not real In a moment of clarity Summon an act of charity You gotta pull me out of this mud Sweet baby, I need fresh blood Whoo! HowlWhoo! Howl Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
