

# Slender Frame

a-ha

Your coat is hanging loosely  
On your slender frame  
There's many roads to leave by  
But few come back again I don't believe it  
I believe it Take a look around and see  
What's stopping you is stopping me  
One moonless night, we'll make it right  
And vanish in the dark of night Pack up your things and go  
Run down the road, don't take it slow  
Pack up your things today  
And run away, yeah, run away  
You say it's useless crying  
That never got you far  
You'd claim there's none as lonely  
Lonely as you are I don't believe it  
I believe it Take a look around and see  
What's breaking you is breaking me  
One moonless night, we'll make it right  
And vanish in the dark of night Pack up your things and go  
Run down the road, they'll never know  
Wrap up your things today  
And run away, yeah, run away One moonless night  
And vanish in the dark of night  
Pack up your things and go  
Run down the road, don't take it slow  
Pack up your things today  
And run away, yeah, run away Pack up your things and go  
Run down the road, they'll never know  
Wrap up your things today  
And run away, yeah, run away
