

# Drug Mugger

Ty Segall

Tile beater, knife eater  
Not give a word out from my [?]  
Drug mugger, feel faster  
Yeah, we'd give our all Face down to the floor  
We ain't lookin' to the skies no more  
It's the eye of the outer connection  
Connection eye I'll listen, I'll look  
Bring in what they could  
Inter means, Interpol  
Don't look where it came from Face down to the floor  
We ain't lookin' to the skies no more  
It's the eye of the outer connection  
Connection eye  
Face down to the floor  
We ain't lookin' to the skies no more  
It's the eye of the outer connection  
Connection eye
