

Drug Mugger

Ty Segall

Tile beater, knife eater
Not give a word out from my [?]
Drug mugger, feel faster
Yeah, we'd give our all Face down to the floor
We ain't lookin' to the skies no more
It's the eye of the outer connection
Connection eye I'll listen, I'll look
Bring in what they could
Inter means, Interpol
Don't look where it came from Face down to the floor
We ain't lookin' to the skies no more
It's the eye of the outer connection
Connection eye
Face down to the floor
We ain't lookin' to the skies no more
It's the eye of the outer connection
Connection eye
