

# The Stars Are Projectors

## Modest Mouse

In the last second of life  
They're gonna show you how  
How they run this show  
Sure, run it into the ground  
The stars are projectors, yeah  
Projecting our life down to this planet earth  
The stars are projectors, yeah  
Projecting our minds down to this planet earth  
Everyone wants a double feature  
They wanna be their own damn teacher  
And how all the stars are projectors, yeah  
Projecting our lives down to this planet earth  
It's all about the moderate climates  
You gotta be cold and be hot for sure  
It's all about the moderate climates  
You wanna be blessed and be cursed, for sure  
And the stars are projectors, yeah  
Projecting our lives down to this planet earth  
And the stars are projectors, yeah  
Projecting our lives down to this planet earth  
Everyone wants a double feature  
They wanna be their own damn teacher  
And how all the stars are projectors, yeah  
Projecting our minds down to this planet earth  
You've got the harder part  
You've got the kinder heart and it's true  
I've got the easy part  
I've got the harder heart, ain't this true?  
Right wing, left wing, chicken wing  
It's built on finding the easier ways through  
God is a woman and the woman is  
An animal, that animal's man and that's you  
Was there a need for creation?  
That was hiding in a math equation and that's this  
Where do circles begin?
