

Get Lost (feat. Ashe)

Bearson

Desert night, open eyes, I've been watching
Looking back in the past, I do it often
Calm the nerves, I'm a passenger
When I should be driving
Second guess my every step is undecided
Took another wrong turn again and found myself
'Cause you could only see in the end That you gonna get lost to find yourself
Know you gonna hold on for something else
'Cause you got a life time to work it out
So you gonna get lost to find yourself
To find yourself
A movie scene of your routine
Go through the motions
You're there and back
With this and that
But never knowing
Water in your glass
You think it's half, but it's an ocean
Then finally you will see it's overflowing
Took another wrong turn again and found myself
'Cause you could only see in the end
That you gonna get lost to find yourself
Know you gonna hold on for something else
'Cause you got a life time to work it out
So you gonna get lost to find yourself
To find yourself
