

# In the Belly of a Shark

## Gallows

So here I lie  
In the belly of a shark  
So fucking cold and so fucking dark  
So here I lie  
In the belly of a shark  
How the fuck did I get this far? Now all I have to do  
Is swim after you  
Convince you to climb into  
Cut yourself first  
They can smell your blood  
From forty miles away  
They'll be here in no time  
And they can hear you cry So here I lie  
In the belly of a shark  
So fucking cold and so fucking dark  
So here I lie  
In the belly of a shark  
How the fuck did I get this far?  
I'm gonna show you  
Exactly what you mean to me  
I'm gonna eat every man that you see I'm gonna show you  
Exactly what you mean to me  
I'm gonna eat every man that you see
