

# Human

## Elastica

I was only human  
Of flesh and blood  
I would relate to you  
You know I could I long to hold you  
Just like you do  
Ten times I've thought about it  
The things you do And so you see that  
It's such a shame  
It's just the way it goes  
There is no pain  
I long to hold you  
Do what you would  
Do dancing like you want to  
You know I could
