

Bright (Lost Kings Remix)

Echosmith

I think the universe is on my side
Heaven and Earth have finally aligned
Days are good and that's the way it should be You sprinkle stardust on my pillow case
It's like a moon beam brushed across my face
Nights are good and that's the way it should be You make me sing 'oohh la laa'
You make a girl go 'oohh oohh'
I'm in love, love Did you see that shooting star tonight?
Were you dazzled by the same constellation?
Did you and Jupiter conspire to get me?
I think you and the Moon and Neptune got it right
'Cause now I'm shining bright, so bright
Bright, so bright
And I see colors in a different way
You make what doesn't matter fade to grey
Life is good and that's the way it should be You make me sing 'ooohh la laa'
You make a girl go 'ooohh oohh'
I'm in love, love Did you see that shooting star tonight?
Were you dazzled by the same constellation?
Did you and Jupiter conspire to get me?
I think you and the Moon and Neptune got it right
'Cause now I'm shining bright so bright
And I get lost in your eyes Did you see that shooting star tonight?
Were you dazzled by the same constellation?
Did you and Jupiter conspire to get me?
I think you and the Moon and Neptune got it right
'Cause now I'm shining bright
So bright
Bright
So bright
Bright
So Bright
And I get lost in your eyes
Tonight
