

West Indian Revelation

Taj Mahal

I spent last summer on an island, in the Mediterreanean Sea.
The sunshine was so bright, yes you know it burned me down to my soul.
I wish everybody that i had to love was there with me
What a time, baby what a time, I had when I was there.
Mmm... mm... oo... mm...First I'm an African man, second I'm black Jamacian, third I'm black American.First I'm black African, second im black Jamacian, third I'm black American.First I'm an African man, second I'm black Jamacian, third I'm black American.Shake it shake it shake it shake it shake it shake it shake it let your body swim.
Shake it shake it shake it shake it shake it shake it shake it baby take a pull of rum again.
If you have not had enough of it in your life, you just cannot have your fill.
Mmm... ooo... mmm...
First I'm black African, second im black Jamacian, third I'm black American.
