

# Fifteen (feat. Chela)

## Goldroom

It's been a long time  
Wondering why  
The summer smells like sin and wonder  
Feels like it  
Got inside of  
A place and time I dream about when  
I get a walk in  
I'll let us always  
The summer sun I can't go back to  
The touch of your skin  
On my skin  
Look always the sun's above us  
Now you know we'll look back in time  
But we were only fifteen  
Fifteen we're floating through the slipstream  
You're with me  
We were only fifteen  
Fifteen just floating through the slipstream  
It's been a long time  
Wondering why  
The summer smells like sin and wonder  
Feels like it  
Got inside of  
A place and time I dream about when  
I get a walk in  
I'll let us always  
The summer sun I can't go back to  
The touch of your skin  
On my skin  
Look away the sun's above us  
Now you know we'll look back up in time  
But we were only fifteen  
Fifteen we're floating through the slipstream  
You're with me  
We were only fifteen  
Fifteen we're floating through the slipstream
