

# Under the Pressure

## The War on Drugs

Well the comedown here was easy  
Like the arrival of a new day  
But a dream like this gets wasted Without you  
Under the pressure  
Is where we are  
Under the pressure  
Yeah it's we are babe Holding over  
Like an illusion  
When it all breaks down and we're runaways  
Standing in the wake of our pain  
And we stare straight into nothing  
But we're covered all the same  
You were raised on a promise  
To find out over time  
Better come around to the new way  
Or watch as it all breaks down here  
Under the pressure River break down here  
Stolen away up top I will come down the river  
Staying alone  
When you come here when we're wasted  
Lying in a ditch  
Pissing in the wind  
Lying on my back  
Loosening my grip  
Wading in the water  
Just trying not to crack  
Under the pressure  
Yeah, it's where we are, babe  
Under the pressure, woo!
