

# Beg for It

## Hardcore Superstar

What!?  
Am I thinking too loud?  
My brain hurts  
So I'll rest for a while  
Good luck!  
My head's about to break  
Emotionally sick  
I beg to differ  
just rotten inside  
Slowly I die  
Beg for it  
Lift me up let me touch the sky  
beg for it  
No more demons standing by my side  
They want inside my head  
Guess they want me dead  
Lying face down in my grave  
Beg for it  
No more demons standing by my side No way  
I'm kept in a cage  
My patience has expired  
I need a new face  
I feel emotional  
I feel I have to fly  
I'm not in to living if i know i'm going to die  
Slowly I die  
Good luck  
Cause I'm about to break  
I feel I have to fly  
Rest for a while  
I feel emotional  
I fell i have to fly  
Do I have to beg for it?
