

# Kirby's House

## Razorlight

From the stomas came the novation  
It rattled the foundations of the house that I live in  
Now I can't live there anymoreA child sleeps then he awakens  
He shrieks until he is taken  
To a house he can live inTake him to a house he can live inAnd in the morning when you know  
it's gonna be alright  
In the morning when you know he won't remember a thing  
Well in the morning when you know it's gonna be alright  
Hush-a-bye, it's gonna be alright  
Yeah, I- I get drunk and sentimental  
I need a touch that is gentle  
Just to take meTake me to a house I can live in  
Take me to a house I can live in  
Take me to a house I can live inAnd I heard your crooked words about something  
So I'm sayin nothing  
I know that it's nothin'I can hear it in the house that you live in  
Take me to a house I can live in  
Take me to a house I can live in  
Take me to somewhere I can live  
Take me to a house I can live in  
Take me to a house I can live in  
Take me to a house I can live in  
Take me to a house I can live in  
Take me to a house I can live in  
Take me to a house I can live in  
Yeah, take me to a house I can live in  
Ah, take me to a house I can live in  
Take me to a house I can live in  
Take me to a house I can live in  
Take me to a house I can live in  
Take me to a house I can live in  
Take me to a house I can live in  
Take me to a house I can live in  
Take me to a house I can live in  
Take me to a house I can live in  
Take me to somewhere I can live
