Keep Your Head

The Ting Tings

The room's green It's got writing On the wall It's got one chair It's kinda smallDirty shoes Running past the door And then you go round Beat yourself up, Ten minutes to go, And I wanna go home Ten minutes to go, Yeah I've got to go home Ten minutes to go, And the air It don't feel clear Everybody disappear You're in it On your own Fourteen Intimidated And she's just fourteen She's getting pulled From the opposite side, Until it breaks down Blame it on The wrong crowd Stay, more make up Hair dyeTen minutes to go, You know She should have gone home Ten minutes to go, Yeah You should have gone home Ten minutes to go, And the air It don't feel clear, Everybody disappear You're in it on your ownYou can't sleep, You know it's over But you just can't sleep You've gotta face it,

Gotta go outside And do the day-walk Living With the lights off Ain't nobody homeTen minutes to go, You know You wanna stay home Ten minutes to go, Yeah you wanna stay home Ten minutes to go, And the air It don't feel clear, Everybody disappear You're In it on your ownKeep your head Keep your head Just keep your head Keep your HeadYou wanna keep Ah Keep it on The right side If you know Your gonna be Coming off It's gonna make you Open your eyes I said, now Open your eyes You know it You wanna keep Ah Keep it on the low side Yes you gonna see Ten minutes to go (?) And your keeping it Heads up Keep it low, be right Push it kinda lowSo, open your eyes
