

# All This Time

## Drax Project

What's in your head? Wish that I could see you thinking  
Let me in  
Is what you're saying, what you're meaning? I'm tryna make some sense  
I'm over the suspense  
But a part of me knows how this ends 'Cause after all this time  
Got me feeling alive  
And we could go all, all night  
'Cause you know what we're like  
And after all this time  
Got me feeling alive  
And we could go all, all night  
'Cause you know what we're like Yeah that's what we like  
Is it all in my head?  
You said I could see it, show me that you mean it  
Let me in, though I don't wanna lecture or put you under pressure  
I'm just tryna make some sense  
I'm over the suspense  
But a part of me knows how this ends  
I know 'Cause after all this time  
Got me feeling alive  
And we could go all, all night  
'Cause you know what we're like  
And after all this time  
Got me feeling alive  
And we could go all, all night  
'Cause you know what we're like Yeah that's what we like That's what we like  
'Cause after all this time  
Got me feeling alive  
And we could go all, all night  
'Cause you know, 'cause you know  
And after all this time  
Got me feeling alive  
And we could go all night  
'Cause you know, 'cause you know 'Cause after all this time  
Got me feeling alive  
And we could go all, all night  
'Cause you know what we're like  
And after all this time  
Got me feeling alive  
And we could go all, all night  
'Cause you know what we're like Yeah that's what we like That's what we like That's what we

like'Cause you know what we're like
