Whiskey and You

Darius Rucker

Always there When my world starts closing in Something to hold No matter how long it's been Gets me high Then knocks me to the ground Soothes my mind And then begins to break me down(Chorus) Whiskey and you Ain't nothing I can do But come crawling back to Whiskey and you I never asked you to love me I never begged you to stay But I never want you to leave me I wouldn't have it any other wayRepeat ChorusAs darkness finds the candle And the flame stops flickering Girl I know and I hope It won't be too long 'Til we light it up againRepeat Chorus

'Til we light it up againRepeat Chorus
Whiskey and you
There ain't nothing, there ain't nothing I can do
But I keep crawling, I keep coming back to
Whiskey and you
