

# Holdin Fort

## Naughty By Nature

Oh, oh hell yeah  
(\*police sirens, car screeches\*)  
(Alright we don't want any problems here. Y'all just break it up) Five-0  
(Just, just) Say what? (go on home)  
(We don't wanna take anybody in. We don't wanna give any citations  
I ain't goin nowhere, I ain't goin nowhere  
(Ahh, just, ahh, go on home and turn down that music)  
Fuck that we havin fun (Turn, I want the music turned off)  
ain't nobody doin nuttin, ain't nobody doin nuttin (right now!)1: Treach  
From stank booties wit cooties  
the finest head is hoochie's  
Bunta, change your name from Kunta  
Still wouldn't do that shit that you say, who play  
with that hoopla hooray, who say? What? Who try?  
You lie where you try you want ta see your whole damn crew fry  
The moral of the story, niggas handling it  
Crooked cops wanna run us out but we ain't abandoning shit  
Cos we from 1-1-8 wit a slum of crazy  
niggas wit sawn offs, tre-8's, plus nine millimetres WAIT!  
You don't wanna start a riot  
cos they won't jack shit, get quiet til half the fucking force is fired  
Done em boys now dem unemployed  
See them on Orange Street looking ta get broke fiending in dope, looking to  
get corduroy  
boy the son of Tory, a tray hot hole  
She play that model like a throttle to waddle a bottle  
Stop that crooked cop shit is the topic  
We're coming, fuck a summons, so long as Illtown rocks it, you can't stop  
itNow who's these motherfuckers in our neighbourhood?  
Just pound the sound don't worry now cos they found Illtown  
Now who's these motherfuckers in our neighbourhood?  
Just pound the sound, don't worry now, don't worry now!  
(This is car number 5-0  
We have no control over the situation  
We are now dispersing  
We advise the Mayor be moved immediately  
My God, at least 1500 people are marching straight for City Hall)2: TreachTo bad if you're  
agile, knee check fragile, eject, reject  
What's left of your respect? A bag of shit, did you see yet?  
I'll G it like Viet-nam bomb, so be it  
Even freak it from the deepest ta weakest, even beat walkers beat it  
Body breaker from the bricks bank and booty bumper who knew boo

hoo, scary like voodoo, strictly Illtown and Zoo crew  
 The party can't quit it's been plan, bought cop's hunt and man's sport  
 They scam sports while Illtown and Newark stand fort  
 We don't wrestle and fools don't disrespect us  
 They don't want ta get pulled inside-out from their assholes and lassoed  
 We just break down and boogie oogie oogie  
 A shoutout ta Ski, Steve Pedro, Gutta and Mookie  
 We're on a mission to keep pou people hoppin and hippin instead of trippin  
 even if the city won't give us permission  
 Listen now, party's mo' butter now, better not fuck around and try ta shut  
 us down  
 We'll find out who run this town Now who's these motherfuckers in our neighbourhood?  
 Just pound the sound, don't worry cos they found Illtown  
 Now who's these motherfuckers in our neighbourhood?  
 Just pound the sound, pound the sound! 3: Treach The sound, the sound, I found the sound, a  
 pound around  
 around a pound of pound of some shit quick ta break it down  
 because the boom-ta-bat-boom-boom makes me want to zoom zoom  
 in ya poom poom, break fool across the room soon  
 as we zoom pass one tellin me chillin's a felony  
 Jokers play like poker, now out comes the jealousy  
 Apparently I am politically overpowered, they can't touch this  
 We'll party no quest', protest show just the slums corruptest  
 So pump this, bump this, pump this if you want this  
 but funk that, funk them, funk this if they front wit  
 that same ol jibber jabber yap flapping groupie crew  
 Etcetera etcetera, ya gotta move the same ol woopy woo  
 You ain't even gotta fill me in, ya better me kill then  
 cos we straight holdin fort like them Indians  
 You talk that I'll lock you up for loitering  
 You'll hit the border then, then you won't be ploicin you'll be borderin Now who's these  
 motherfuckers in our neighbourhood?  
 Just pound the sound, don't worry now cos they found Illtown  
 Now who's these motherfuckers in our neighbourhood?  
 Just pound the sound, don't worry now, don't worry now  
 Now who's these motherfuckers in our neighbourhood?  
 Just pound the sound, don't worry now cos they found Illtown  
 Now who's these motherfuckers in our neighbourhood?  
 Just pound the sound, pound the sound
