

# Years & Years (Nick Talos Remix)

Olly Murs

When I'm alone in the dark  
I paint a picture inside my mind  
Of all the things that I wanted  
But I never thought I would find  
And it blows my mind  
Because there you are by my side  
Maybe you know, maybe you don't  
But it's a question I have to ask  
I know we're young and we got life  
But life always goes so fast  
But while you're mine  
Yeah, it feels like time's on our side  
Years & years, forever young  
Years & years yet to come  
I take every second of every minute  
As long as you're in it, you know I'm winning  
Years & years we won't forget  
The time and place that we met  
And now I remember it all so clear  
You signed your name on my heart  
Saying you were here  
No we're not at the end but we can close maybe once or twice  
We got burned but we learned not to listen to bad advice  
Now I know you're mine  
Cause it feels like time's on our side  
This feeling will never get old, or will never be over while you're still mine  
Years & years, forever young  
Years & years yet to come  
I take every second of every minute  
As long as you're in it, you know I'm winning  
Years & years we won't forget  
The time and place that we met  
And now I remember it all so clear  
You signed your name on my heart  
Saying you were here  
It doesn't matter where we go  
It's all I want, it's all I know  
This feeling's never ever getting old  
Cause all I know, oh, oh  
Know, oh oh  
Years & years, forever young  
Years & years yet to come  
I take every second of every minute  
As long as you're in it, you know I'm winning  
Years & years we won't forget  
The time and place that we met

And now I remember it all so clear  
You signed your name on my heart  
Saying you were here  
Years & years  
Years & years  
Years & years  
You signed your name on my heart  
Saying you were here  
Years & years  
Years & years  
Years & years  
You signed your name on my heart  
Saying you were here
