

# Fly Away (feat. nobigdyl.)

## Lecrae & Zaytoven

I don't know where I'ma go  
I just wanna hit the road  
Slim Thug on the 4's  
Top-down let it flow  
I don't know if I belong here  
Tell my momma Ima miss here but I gotta go yeah  
Things just ain't the same  
Things just ain't the same, man  
I don't care what it cost, man  
I just need an off day  
Gotta let it go  
Had to switch up on em all  
Maybe I'll fly maybe I'll fall  
Gotta let it go  
I was so gone  
Hadn't seen my people in a minute it been so long  
Yeah I say I love em but I know I treat em so wrong  
That's probably why I had to get away  
Cuz I ain't wanna make em feel that way  
I pray that I can make right again  
I was so low, low, low  
I ain't have no where to go who, a whoa, whoa  
Things just fell apart  
Everybody fell apart, everybody played a part, everybody played a role  
Gotta change the episode  
I don't know where I'ma go  
I just wanna hit the road  
Slim Thug on the 4's  
Top-down let it flow  
I don't know if I belong here  
Tell my momma Ima miss here but I gotta go yeah  
Things just ain't the same  
Things just ain't the same, man  
I don't care what it cost, man  
I just need an off day  
Gotta let it go  
Had to switch up on em all  
Maybe I'll fly maybe I'll fall  
Gotta let it go Things just ain't the same,  
Things just ain't the same, man  
And even though we change  
We don't change the same way

Things just fell apart, everybody fell apart  
Everybody played a part  
Everybody played a role,  
Gotta change the episode  
Maybe I could be a different me,  
Maybe you could be another you  
We can find another galaxy,  
Fly away from all the vanity  
Away, away, we can fly away I don't know where I'ma go  
I just wanna hit the road  
Slim Thug on the 4's  
Top-down let it flow  
I don't know if I belong here  
Tell my momma I'ma miss here but I gotta go yeah  
Things just ain't the same  
Things just ain't the same, man  
I don't care what it cost, man  
I just need an off day  
Gotta let it go  
Had to switch up on em all  
Maybe I'll fly maybe I'll fall  
Gotta let it go Stress since they medicate our best intentions  
Young and reckless we just flexing 'cause we pessimistic  
My confession, I just hope my ex is watching  
Gotta a girl and she's a blessing  
But I play the best imposter  
Tell me no lessons, uh,  
Don't need no message, uh  
Yeah, I need your presence,  
Uh, you are my blessing, uh  
Clean up my senses, tear down my fences,  
Clean up my messes, uh  
If I don't pick up, yeah, please leave a message I don't know where I'ma go  
I just wanna hit the road  
Slim Thug on the 4's  
Top-down let it flow  
I don't know if I belong here  
Tell my momma I'ma miss here but I gotta go yeah  
Things just ain't the same  
Things just ain't the same, man  
I don't care what it cost, man  
I just need an off day  
Gotta let it go  
Had to switch up on em all  
Maybe I'll fly maybe I'll fall  
Gotta let it go
