

Calling All Cars

Sean Hayes

Calling all cars, calling all cars
Calling all broken hearts
Come on go out tonight
Shake it out Calling all cars, calling all cars
Calling all broken hearts
Come on go out tonight
Shake it out We're in the same boat, you & i
Two broken hearts, baby wide eyes
With so much love to give
Sure glad i ran into this You and your t-rex t-shirt
That you sold for lies
You shook me out for one night
You took me out for one night
I want to thank you, thank you
I want to thank you, thank you
Thank you, i want to thank you Calling all cars, calling all cars
Calling all broken hearts
Come on go out tonight
Shake it out Calling all cars, calling all cars
Calling all, calling all
Come on go out tonight
Tear it down I want to thank you, thank you
I want to thank you, thank you
Thank you, i want to thank you Sweet morning love
Raining morning love
With your sachet and your bright smile
And you're sexy with your fine style With your sachet and your bright smile
And you're sexy with your fine style With your sachet and your bright smile
And you're sexy with your fine style Come on go out tonight, shake it out
Come on go out tonight, tear it down
We're going to go out tonight, shake it out
We're going to go out tonight Come on go out tonight, tear it down
Come on go out tonight, shake it out
