

Tonight

Kidswaste & Manila Killa

The darkness makes me want you
Do you feel that too?
The darkness makes me want you
But do you want me too? What if we break the rules
Tell me that you want me too
When the sky sees the light
All I see are your eyes So what if we just say
Were gonna run away
It'll be alright
Believe me when I say
I never wanna change you and I
So what if we just say
Were gonna run away
It'll be alright
Believe me when I say
I never wanna change you and I The darkness makes me want you
Do you feel that too?
The darkness makes me want you
But do you want me too? You could make me forget
All the walls around my head
All I know is I want more
What are you waiting for? So what if we just say
Were gonna run away
It'll be alright
Believe me when I say
I never wanna change you and I
So what if we just say
Were gonna run away
It'll be alright
Believe me when I say
I never wanna change you and I The darkness makes me want you
Do you feel that too?
The darkness makes me want you
But do you want me too?
