## **Burn the Obedient (feat. Noisia)**

## Korn

Are you scared? Holding on to sacred places Holding on to what is found I'm looking forward to see their faces Flat on the ground, the horror profound None of you people mean shit to me Sadistic little f\*cking fantasy Lying on the ground in your own debris While choking on your blood from the sodomy None of you people mean shit to me Sadistic little f\*cking fantasy Burn the obedient, set yourself free Walk the path of secrecy Used to heartless mockery A hopeless fantasy that nothing changes Your misery All the damage it just erases Mediocrity all around The grandiose disorder replaces Conditions of peace, is this my release? None of you people mean shit to me Sadistic little f\*cking fantasy Lying on the ground in your own debris While choking on your blood from the sodomy None of you people mean shit to me Sadistic little f\*cking fantasy Burn the obedient, set yourself free Walk the path of secrecy Used to heartless mockery A hopeless fantasy that nothing changes Your misery (La la la...) Burn the obedient Now Walk the path of secrecy Used to heartless mockery

A hopeless fantasy that nothing changes
