

He Said Eternity

In This Moment

You're my star, guiding me
I know loveWhispers of a life, in one breath you'd be
Everything I am, you saved meYou're the light, in my darkest hour
I'll be fine, with you I can move on
This is our eternityThere are no words, to say how proud I am
You're my miracle, my angelYou're the light, in my darkest hour
I'll be fine, with you I can move on
This is our eternityI would walk through flames for you, to light a wayI light a path for you,
and carry you through life
You're my miracle, my angel
You're the light, in my darkest hour
I'll be fine, with you I can move on
This is our eternity
