You Put a Smell On Me (Breakbot Remix)

Matthew Dear

Take a ride in my big black car

Never ask no one

Never ask no one

If you take a ride in my big black car

Never took too much

We can go real far

It's got wheels

And a big black bar

Take a ride with me

In my big black car

Take a ride with me in my big black car

Take a ride in my big black car

We can go real loud

We can go real far

We have a radio in my big black car

We can go all night, if you wanna go far

You decide if you want to come

Take a ride with me in my big black gun

We've got four wheels that can take us there

If you wanna come down

Don't answer meGonna ride (repeated)Dance with me on the big dance floor

I can take you out--gonna show you off

Do the (?) line to the dance machine

We can go all night if you dance with meTonight (repeated)

And afterward you can come with me

To my big black house

On the big black sea

I would like you to put on

Something nice that's soft and warm

It's a little red gown with a name on it

You can dance with me just for a bit

Try it on--it's your size

Gonna dance, dance, all nightLittle red night gown

Little red night gown, night gown

Little red night gown, night gown

Little red night gown
