

Hurt People (feat. Madison Love)

Two Feet

'Cause hurt people just hurt people
They do it, they do everyday, yeah
Hurt people just hurt people
Why are we used to the pain? Ohh
How many times until we've had enough?
We just gotta find a way to love
My heart is broken just talkin' about this
'Cause hurt people just hurt people
They do it, they do everyday
If I felt all my lies I know that I'd be broken
Take all these pills to quell fucked up emotions
Bill, you're so sick why can't you just be open?
You just be open
You just be open
Push you away to save you from my visions
Killing myself lately that's been my mission
Know I'll explode like it's nuclear fission
Stuck on these visions
Stuck on these visions 'Cause hurt people just hurt people
They do it they do everyday, yeah
Hurt people just hurt people
Why are we used to the pain? Ohh
I got burns on my wrists, but that helps keep me focused
Heroin missed it's chance, I'm here unbroken
Girl, I'm too fucked up you can't fix these problems
You'll never solve them
You'll never solve them
I think about you and it drives me crazy
Wish I could fix my mind, but it's too hazy
Twenty years old is too young you wont save me
Can't help me baby
Can't help me baby 'Cause hurt people just hurt people
They do it, they do everyday, yeah
Hurt people just hurt people
Why are we used to the pain? Ohh
How many times until we've had enough?
We just gotta find a way to love
My heart is broken just talkin' about this
'Cause hurt people just hurt people
They do it, they do everyday
