

Real Thing

Turnstile

Real thing I'm feeling
No eyes can see it
Part dream, part memory
Got to make myself believe But can I keep it all together
Waiting for the real thing?
Can I keep it all together
Waiting for the real, the real thing? Real thing I'm feeling
No eyes can see it
Part dream, part memory
Got to make myself believe
Can I keep it all together
Waiting for the real thing?
Can I keep it all together
Waiting for the real, the real thing?
The real thing, the real thing
