

Pilgrim

Fink

Come a long way, come a long way
Come a long way
Not to work it out
As cold comfort
wraps around you in the dark
Come a long way Come a long way
not to ask the question that's been on your lips all the way
Spit it out
The words come out, yeah
it's already
not as heavy as before
Come a long way
Come a long way
Come a long way Come a long way
Just to say
Doesn't matter when it mattered yesterday
And tomorrow ain't too far
Come a long way
From small beginnings
Come a long way
From small beginnings
Come big endings
