

# Songs About Angels

## Fences

Well, this life can be such a devil  
So I wrote the songs about angels  
I took my coat, I went to the city  
I drank and I dropped and isn't it pretty  
For you, I would do anything  
For you, I would do anything I think that death is coming around  
I like it, I like it  
I think that death is coming around  
I like it, I like it  
Well, this life can be such a devil  
So I wrote the songs about angels  
A nightmare stuck in the catcher  
I'm weaving  
So I sat in the car and dreamed about dreaming  
For you, I would do anything  
For you, I would do anything I think that death is coming around  
I like it, I like it  
I think that death is coming around  
I like it, I like it Chalk it up to bad luck  
Just chalk it up to the lightness  
I think that death is coming around  
I think that death is coming around  
I think that death is coming around  
I like it, I like it  
I think that death is coming around  
I like it, I like it Chalk it up to bad luck  
Just chalk it up to the lightness  
Chalk it up to bad luck  
Just chalk it up to the lightness
