

# Brainstorm On the U.D.S.

## Urban Dance Squad

Introspection - habit of looking  
inside the soul - seek the frame of thought  
thought - swift like fish, gotta hook it  
it disappears, can't be caught, can't be bought  
combination - number of people  
the five believe in style, common purpose  
purpose - not to act like sheep y'all  
lack personality ? - I'm gonna give you a dose  
dose - flows, shows vital, like medicin  
symbolised, subscribed in a rhyme  
rhyme - wordskill which I'm better in  
other men clichelise this time after time  
time - present days of a new race  
not livin' in the past - make music for the future  
future - destiny on stage, on stage  
I'll do this right  
will be the continent's booster  
brainstorm ... udsAs I vocalise, I imperialise  
reason ? - plain, I can hang with the globe  
globe - the earth populated by clydes  
who hope, I ain't dope, and I can't cope  
'co-operability' of mind, body and hands  
like guitarmen play a riff  
riff - popular action, not only for jazzmen  
done well - a crowd can't stand stiff  
stiff - the right word, check a dictionary  
I like to differ and use the term lazy  
lazy - state of a-lotta bands who envy  
the way we gain, play the game, they call us crazy  
crazy - ill in the mind, mad on the whole  
scientists say - "it's the emotion that counts"  
we like to be ourselves - word up to de la soul  
and choose for the ultimate def sound  
brainstorm ... udsGive the gab a new vocab  
I'm aware of your eyes - I treasure like it's a pleasure  
treasure - valuable if your talent lacks  
learn the alphabet in your sparetime leisure  
leisure - period without duty  
no obligations, better known as freedom  
though once free to write mc's use  
tools, routine to bite, oh well, I don't need them  
creative flow - by your own soul, is essential

essential as a grip on a lemon, don't let loose  
squeeze it to make it potential  
if it powers other souls - that's what we call juice  
juice - pizzaz, power, strength  
ingredient to make a band smoking  
smoking - play well without special effects  
jacks play for cheques as a token - think I'm joking ?  
joking - something to make you laugh happy  
happy - mood that keeps you from feeling down  
down - the opposite of being peppy  
which you won't be, 'cos you hear the uds soundbrainstorm ... uds
