

# In-Between

## Seven Mary Three

Hey man:  
you're so complicated and mean  
maybe your system needs adjustment  
she is a famous people collector  
I'm juggling J-O-B the Judger Maybe the words don't mean a thing  
they never fill the dead man's shoes  
who killed the culture-hero trip?  
if it was me then it was you  
You can be intimidating when  
people think you're complicated  
how could you be so in-between?  
what they want and what you need "Man, you're so complicated and mean"  
the young mustafah cleaner said  
"Don't waste your mojo on a curse  
politic your angry reason out of bed" And if your words mean anything  
make them a positive foundation  
back it up with what you do  
wring the love out of frustration  
You can be intimidated when  
people think you're complicated  
how could you be so in-between?  
what they want and what you need
