

# It Coulda Been Worse

## Lyfe Jennings

Yeah, you always complainin' about how bad stuff is, folks  
Complainin' about a light bill  
Hell, there's people that don't even got lights, you know  
So I wanna tell everybody listenin', man  
Embrace your struggle, 'cause no matter what, man  
True story, it coulda been worse  
Come on I was going through some changes in my life  
Cursin' and complainin' every night  
Telling God the way He's treatin' me ain't right  
And how I don't deserve this Then a voice from somewhere came to me  
And said you got the audacity  
To fake some of that disrespect  
(How soon we forget)  
And He said, "Remember  
When you were sick and you got better  
Remember, I put your family back together  
Remember, I coulda cut you off forever  
So no matter how bad you think it hurts" It coulda been worse  
(Coulda been worse)  
You coulda been dead  
(You coulda been dead) You coulda been paralyzed  
(You coulda been paralyzed)  
Confined to a bed  
(Confined to a bed) You coulda lost everything  
(You coulda lost everything)  
Should've lost everything  
(Should've lost everything)  
But somebody's watching you  
(But somebody's watching you)  
And gave you another chance  
(And gave you another chance) It's so funny how we think we got it rough  
When there are babies who got mammas hooked on drugs  
And this depression got some folk losin' their homes  
They spent their whole lives saving for It's petty in comparison  
And tell me you would switch places with them  
(You runnin' over to God to complain)  
But have you ever went to him to just say "Thanks"? And don't you remember  
He didn't let the disease take you  
Remember, He didn't even get a "Thank you"  
Remember, how could He love you just to hate you  
So no matter how bad you think it hurts It coulda been worse  
(Coulda been worse)

You coulda been dead  
(You coulda been dead) You coulda been paralyzed  
(You coulda been paralyzed)  
Confined to a bed  
(Confined to a bed) You coulda lost everything  
(You coulda lost everything)  
Should've lost everything  
(Should've lost everything) But somebody's watching you  
(But somebody's watching you)  
And gave you another chance  
(And gave you another chance) It coulda been worse  
(Coulda been worse)  
You coulda been dead  
(You coulda been dead) You coulda been paralyzed  
(You coulda been paralyzed)  
Confined to a bed  
(Confined to a bed) You coulda lost everything  
(You coulda lost everything)  
Should've lost everything  
(Should've lost everything) But somebody's watching you  
(But somebody's watching you)  
And gave you another chance  
(And gave you another chance)
