

Arizona

Mylets

Won't you tell me I'm not heading forward
My last name's not old enough to care
And I don't know you
And I don't owe you Arizona, I thought I warned you
Evil is inbound so find yourself now
There has got to be a better way out
My friend tells me she's not going to stay And I don't know you
And I don't owe you
I don't know where I lost myself
I'm wide awake, I'm someone else There is a mob inside my skin
And I'm the one who let them in
Let me reply to tell my story
You're the one who's not done growing
Arizona, I'm short of breath
Now drive me home straight to my bed
