

The Gentry (feat. Aloe Blacc)

Somi

The gentry came - I can't play drums nomore
Sir, that's not what their good money's for
The gentry came
Ohh gentry came The gentry came now I might lose my home
And every soul that I've ever known
The gentry came
Ohh the gentry came Would you like coffee or some tea?
How about milk or some honey?
Would you like coffee or some tea?
How about milk or some honey?
I want it black
I want it back
I want it black
I want it back
The gentry came - I can't play drums nomore
Sir, that's not what their good money's for
The gentry came
Ohh gentry came The gentry came now I might lose my home
And every corner I've ever known
The gentry came, the gentry came Would you like coffee or some tea?
How about milk or some honey?
Would you like coffee or some tea?
How about milk or some honey?
I want it black
I want it back
I want it black
I want it back
Impro "I want it black"
The gentry came - I can't play drums nomore
Sir, that's not what their good money's for
The gentry came
Ohh gentry came
The gentry came now I might lose my home
And every store that I've ever known
The gentry came, the gentry came Would you like coffee or some tea?
How about milk or some honey?
Would you like coffee or some tea?
How about milk or some honey?
I want it black
I want it back
I want it black

I want it back
