Never Would Have Made It

Teyana Taylor

Never would have made it Never would have made it without youYou are the highlight of my life You are the sunshine in my night Oh how, oh how, oh, do I Ever repay youFinally, I know what I want I learned from my mistakes and my heartbreaks The road to hell was paved with good intentions No matter which one you, no matter which one you take Never truly follow my heart Made a lot of decisions based on everyone but me But now, I'm strong enough to let it go I'm wise enough to take control My mama told me everything My mama told me everything I knowYou are the highlight of my life You are the sunshine in my night Oh how, oh how, oh, how do I Ever repay youStand up, press forward, move on Don't cry, we'll make it through the night For sure You are the highlight of my life You are the sunshine in my night Oh how, Oh how, oh how How do I Ever repay youNever would have made it Never would have made it without you Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
