## Tamia

He said, It's like the grass that grows between the cracks of ghetto streets, relentless inspite of  
the neverlasting, I  
said baby dam you got lyrics, make it like poetry!The thugged out pimped out imagines release  
them save those roles for the young souls who believe them I want the  
undefineable, indescribable and more, but yet so clear when you walk through that door, I  
said I want it hard, mystical,  
tender and correct without expectations but all of that met. Take me around the world, but  
please come direct, speak to  
me, speak to my heartMake it like poetry, make it like poetry, poetry, poetry, give your flow  
slow to me give all night  
Make it like poetry, make it like poetry, poetry, poetry everything wrong you see make alright,  
make it likeKisses of raindrops wash away the pain, each stroke is a journey on a long train to a  
new destination, new meditation in  
love relization of possibilities he says to me I've given hard, mystical, tender and correct,  
without expectations yet all  
of them met, take me around the world, but please come direct and speak to me, speak to my  
heart.(Repeat)  
Make it like  
To be or not to be won't be any question  
Make it like  
The sling of arrows of outrageous love are gone  
Make it like  
A dream I can touch, a dream I can feel.  
Make it like  
Only you, only you can take me there  
Make it like  
Poetry, Poetry, Poetry(Repeat until fade)  
Yeah Poetry
