

# Everywhere I Go

Amy Grant

I was wasting time  
Oh so sure to find  
Somebody  
Who'll never go  
How could I know? Oh. None I found was true  
None could be but you  
The only one love divine  
My heart, my mind  
Are yours  
Everywhere I go  
I see your face through the crowd  
(Everywhere I go)  
I hear your voice clear and loud  
(Everywhere I go)  
You are the light that I see  
(Everywhere I go)  
You have found me Where could my heart go?  
Where you wouldn't know  
To find me  
Far, far from here  
Still you are near  
To me  
Everywhere I go  
I see your face through the crowd  
(Everywhere I go)  
I hear your voice clear and loud  
(Everywhere I go)  
You are the light that I see  
(Everywhere I go)  
You have found me I have seen you in the evening  
In the morning light  
You hold me  
Closer than the air around me  
You surround me always Everywhere I go  
I see your face---through the crowd  
I hear your voice clear and loud  
You are the light that I see  
You have found me (Everywhere I go)  
I see your face through the crowd  
(Everywhere I go)  
I hear your voice clear and loud  
(Everywhere I go)

You are the light that I see  
(Everywhere I go)  
You have found me\*\*\*Fading out\*\*\* (Everywhere I go)  
I see your face through the crowd  
(Everywhere I go)  
I hear your voice clear and loud  
(Everywhere I go)  
You are the light that I see  
(Everywhere I go)  
You have found me
