

# Just a Fool (with Blake Shelton)

## Christina Aguilera

Another shot of whisky please bartender  
Keep it coming 'til I don't remember at all  
How bad it hurts when you're gone

Na Na Na

Turn the music up a little bit louder  
Just gotta get past the midnight hour

Maybe tomorrow it won't

Be This

Hard Who am I kidding

I know what I'm missing

I

I had my heart set on you

But nothing else hurts like you do

Who knew that love was so cruel

Yeah yeah yeah

And I

Waited and waited so long

For someone who'll never come home

It's my fault to think you'll be true  
Yeah yeah

I'm just a fool  
Yeah

I said that I don't care

And walk away whatever

And I tell myself we were bad together

But that's just me trying to move on

With

Out  
You

But who am I kidding

I know what I'm missing

I

I had my heart set on you

But nothing else hurts like you do

Who know that love was so cruel  
Yeah yeah yeah

And I

Waited and waited so long  
For someone who'll never come home

It's my fault to think you'll be true (yeah yeah)

I'm just a fool

For holding on to something that

Never ever gonna come back

I can't accept that it's lost

I should have let it go

Held my tongue

Kept my big mouth shut  
Cause now everything's so wrong

Ooooh wrong

I'm just a fool

A fool for you  
I'm just a fool  
I had my heart set on you  
But nothing else hurts like you do  
Who knew that love was so cruel  
Yeah yeah yeah  
And I  
Waited and waited so long  
For someone who'll never come home  
It's my fault to think you'll be true  
Yeah yeah  
I'm just a fool  
I'm just a fool  
I'm just a fool  
It's my fault to think you'll be true  
Yeah yeah yeah  
I'm just a fool
