

# Courtside (feat. Jessie Reyez)

dvsn

Haha, I was like Momma had her young So they both grew up together  
In a one bedroom apartment  
With a couple guys that were part time  
But they'd leave so quickly  
You know how shit be  
(When mama's only sixteen years older than me)  
She's between the scene  
(And bored at home)  
While making sure  
(I'm not alone)  
She wants consistency  
And she knows  
Attention ain't gon keep her  
She ain't here for games unless they're  
Courtside  
Yeah, ain't trynna waste her time, your time  
She made up her mind and  
Spend your time or your money  
Long as your spending something  
'Cause she ain't there for games  
Unless they're courtside, yeah  
(Ain't trynna waste my time and your time)  
She made up her mind  
Spend your time or your money  
As long as your spending something  
She ain't there for games  
Now she running in the jungle  
With the lions and the cheetahs  
With the liars and the cheaters  
With their eyes on her, now  
She learned how tell them all apart, now  
She only love from the red bottoms (Of my heart)  
(Yeah, Size 7 can you afford 'em?)  
(Yeah) Or 6 and a half in Jordan's  
5 days for shipping  
Her wardrobes imported  
(If you want me that's how you show it)  
She been back and forth  
Between the scenes  
And bored at home  
While making sure that  
(I'm not alone)

(I want consistency)  
And she knows  
Attention ain't gon' keep her  
She ain't there for games unless they're Courtside  
(Yeah, ain't tryna waste my time or your time)  
She made up her mind  
Spend your time or your money  
As long as your spending something  
She ain't here for games  
Unless they're courtside  
(Yeah, ain't tryna waste my time or your time)  
She made up her mind that  
You spend your time or your money  
As long as your spending something  
She ain't there games I'm more worried 'bout respect  
Than I am about a boyfriend  
I'm more impressed about a check  
'Cause Benji's never disappoint me  
Like those boys do, like those, like those boys do  
Real love just destroys you  
Leaves you paranoid, so I made the choice  
To keep my foot down on their necks  
And work till I buy my own foreign  
Fuck a wife, I'll be the exec  
And I won't come home till the morning  
Like those boys do, like those, like those boys do  
Like those, like those boys do  
Like those, like those boys do  
Boys do Like those boys do  
Like those boys do
