

# Predators

## NoMeansNo

When we were young we played among the flowers  
And sucked upon the nipples of our motherstits  
But now before us all of nature cowers  
Through fear and death we've moulded out relationships  
The breeze is blowing lightly through  
the tree tops

The sun is out, we're basking in the light of day  
The birds are eating bugs out of our sore spots  
The clouds are drifting as we dream the hours away  
But I got restless, felt a little hungry

So I jumped into my car

Did not go far

Found a parking spot

And got out for a walk

Using my eyes, using my ears

I'm walking I'm smelling

I'm walking I'm smelling

Something's cooking

I smell something cooking

Something's cooking

I smell something cooking

It's running, but I'm faster

It's jumping that's what I'm after

There's new life for us to eat

I prey on the young and weak

There's new life for us to eat

I prey on the young and weak  
What's your problem, life's a breeze  
First you run and then you eat  
The pavement? bubbling tar along the runway

The purring of our engines drives the birds away

A thousand voices cry in the arena

A thousand voices cry with just one thing to say

When we were young the world was like a vision

The colours and the sounds they look out breath away

But now we watch it all on television

While eating processed meat off of a plastic tray

But I got restless felt a little hungry

So I jumped into my car

Did not go far

Found a parking spot

And jumped out for a walk

Using my eyes, using my ears

I'm walking I'm smelling

I'm walking I'm smelling

Something's cooking

I smell something cooking

Something's cooking  
I smell something cooking  
It's running, but I'm faster  
It's jumping that's what I'm after  
There's - life for us to eat  
I prey on the young and weak  
There's new life for us to out  
I prey on the young and weak  
Life is simple, here's the key  
First you rest and then you feed  
We're Predators  
We're Predators you and I  
I have no blood on my hands  
I have blood on my teeth  
Relish
